# Business Continuity & Disaster Recovery - Extract

Document ID: E02 / BCP-2026-02 | Supplier: Cedarline Analytics Ltd | Issued: 12 February 2026

**FICTIONAL training material. All organisations, statements, evidence and dates in this case are simulated.**

## 1. Covered service

Cedarline Analytics SaaS invoice-reconciliation portal and related API. The plan applies to the main EU production tenant.

## 2. Approved recovery objectives

| Metric | Documented target | Basis |
|---|---|---|
| Recovery Time Objective (RTO) | 12 hours | Failover plus data validation |
| Recovery Point Objective (RPO) | 4 hours | Scheduled backup snapshots |
| Last tabletop exercise | 18 November 2025 | Manual exercise; no production failover |

## 3. Constraints

The 12-hour RTO and four-hour RPO are current internal targets. Faster recovery may occur but is not guaranteed or documented as a contractual commitment.

## 4. Evidence citation anchor

E02 page 1, section 2. Buyer requires RTO four hours and RPO one hour; questionnaire claims those are already met.
