Incident Response Exercise - Record

Document ID: E06 / IR-EX-2026-09 | Supplier: Cedarline Analytics Ltd | Issued: 18 September 2026

FICTIONAL training material. All organisations, statements, evidence and dates in this case are simulated.

1. Exercise scenario

Simulated credential compromise affecting a staging environment. This was a tabletop exercise and did not involve a live breach.

2. Measured outcomes

Measure	Outcome	Notes
Initial triage	12 minutes	SOC acknowledged inject
Security lead escalation	36 minutes	Within internal 60-minute target
Regulator/customer notification	Not exercised	Customer notices were out of scope

3. Actions

Action IR-22: rehearse customer notification obligations within 90 days. Assigned to Head of Security; not yet evidenced as completed.

Evidence citation anchor

E06 page 1, sections 1-3. Demonstrates some internal response capability but does not prove a 24-hour contractual notification obligation.
